TECHNICAL SPECIFICATION

SARAH ARNETT wallcovering / window graphics / acrylic

DIGITALLY PRINTED wallcoverings

Product SARAH ARNETT

Description Commercial quality vinyl wallcovering laminated onto woven/non woven fabric backing. These designs can also be printed onto other Tektura wallcoverings.

Weight 350 grammes per square metre.

Roll Size Sarah Arnett designs are made to order, to fit customer's own wall dimensions. They can also be scaled up/down, stretched or cropped to suit. All can be repeated widthways for longer walls. Elements can be moved / removed (See individual designs for more info). The mural is supplied in pre-cut drops. The number, width and height of each drop are determined by the final wall dimensions. Drops are supplied with extra selvedge for overlapping and trimming.

Example. Sun Valley design supplied in 4 drops, shown on wall 4.55m wide x 3m tall.

Maximum Recommended size

Sarah Arnett designs have been tested to print up to 3m tall.

Print size exceeding recommended maximum may result in some deterioration in print quality (eg pixelation)

SUN VALLEY single repeat 4550mm w x 3000mm h The sun can be resized, repositioned or removed to suit. Can be repeated widthways for longer walls.

Original design / single repeat

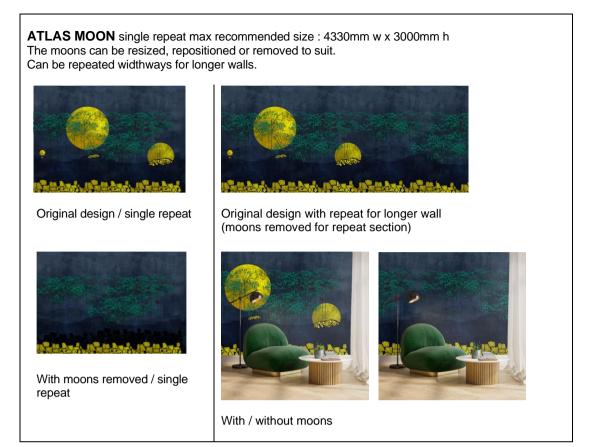

With sun removed / single repeat

Original design with repeat for longer wall

With sun removed, repeated for longer wall

NEW MOONS single repeat max recommended size : 4600mm w x 3000mm h The moons can be resized, repositioned or removed to suit. Can be repeated widthways for longer walls.

Original design / single repeat

With moons removed / single repeat

Original design with repeat for longer wall (moons removed for repeat section)

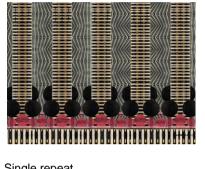

With / without moons

ODYSSEY single repeat max recommended size : 4700mm w x 3000mm h Can be repeated widthways for longer walls.

Single repeat

HANDLOOM single repeat max recommended size : 4150mm w x 3000mm h Can be repeated widthways for longer walls.

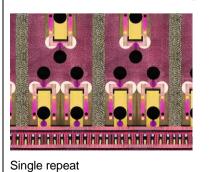

Single repeat

FOLKLORE single repeat max recommended size : 3650mm w x 3000mm h Can be repeated widthways for longer walls.

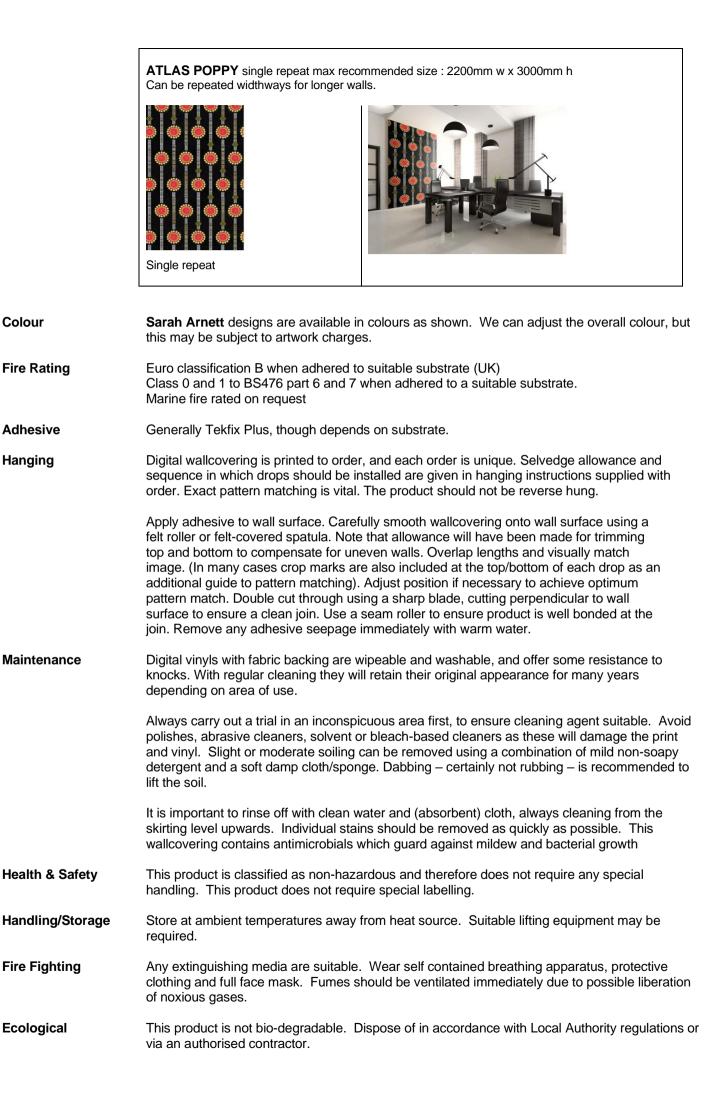

KILIM single repeat max recommended size : 3350mm w x 3000mm h Can be repeated widthways for longer walls.

DIGITALLY PRINTED Zintra Acoustic panels

Description	Zintra Acoustic 12mm panel / 100% polyester / 60% recycled PET. Matte finish.
•	
Weight	2.4kg per square metre.
Size	Each mural is supplied in pre-cut panels. The number, width and height of each panel are determined by the final wall dimensions. Max single panel size 2790mm x 1215mm x 12mm
Fire Rating	Euroclass B
Installation	Adhere to substrate with silicone-based construction adhesive. Alternatively attach with screws, Z-clips, nails, stand-offs, aluminium trim or millwork.
Maintenance	Vacuum to remove dust. Remove spills immediately using a clean damp cloth or with soap and water. Carpet and fabric cleaners can be used but always test an inconspicuous area first.
Health & Safety	This product is classified as non-hazardous and therefore does not require any special handling. This product does not require special labelling.
Handling/Storage	Zintra acoustic panels must be stored in a cool, dry, well ventilated area, out of direct sunlight and away from heat sources. During storage keep covered (eg with polythene sheet) at all times. Panels should be stored horizontally. Pallets should not be stacked.
Fire Fighting	Any extinguishing media are suitable. Wear self contained breathing apparatus, protective clothing and full face mask. Fumes should be ventilated immediately due to possible liberation of noxious gases.
Ecological	Zintra is recycleable Dispose of in accordance with Local Authority regulations or via an authorised contractor.

DIGITALLY PRINTED window film

Description	70 micron polymeric film, frosted or clear.
Weight	22 grammes per square metre
Size	Varies, depending on project
Fire Rating	Euroclass B
Adhesive	Product is self adhesive - permanent pressure sensitive acrylic with Kraft release liner
Installation	Apply the film using a wet application method to saturate the glass, using either proprietary application fluid or a solution of water with a drop of washing up liquid added. Align the film at the top edge using the 'hinge' method. Squeegee the film by applying overlapping strokes from the top centre outwards in each direction and then repeat down the film. A felt squeegee is recommended to avoid scratching. Avoid creasing the film. Once applied the film can be trimmed with a sharp blade. Be aware that water around the edge of the panel will cause dirt ingress, so avoid excess fluid towards the edges of the film.
Maintenance	The film is wipeable and washable. With occasional cleaning it will retain its original appearance for many years depending on area of use. Always carry out a trial in an inconspicuous area first, to ensure cleaning agent suitable. Clean with a mild non-soapy detergent with a soft cloth or sponge. Excess water can be carefully removed with a soft

	rubber squeegee. Be aware that any grit or rough edges on the squeegee may cause scratching.
Health & Safety	This product is classified as non-hazardous and therefore does not require any special handling. This product does not require special labelling.
Handling/Storage	Store at ambient temperatures away from heat source. Suitable lifting equipment may be required.
Fire Fighting	Any extinguishing media are suitable. Wear self contained breathing apparatus, protective clothing and full face mask. Fumes should be ventilated immediately due to possible liberation of noxious gases.
Ecological	This product is not bio-degradable. Dispose of in accordance with Local Authority regulations or via an authorised contractor.

DIGITALLY PRINTED Acrylic

Description	5mm thick cast acrylic, backprinted. The acrylic is clear, with a glossy or antiglare(matt) surface. Supplied with flame-polished edges.
Weight	595 grammes per square metre, based on 5mm thick acrylic.
Panel size	Varies, depending on project. Max recommended size 2400mm x 1200mm
Fire Rating	Class 3 to BS476 part 7
Installation	Panels are supplied ready-drilled, with satin silver mount fixings. Used in conjunction with fittings supplied, the panels are designed to sit 18mm proud of the wall surface.
Maintenance	Acrylic panels can be cleaned by washing with a solution of lukewarm water with a drop of washing up liquid, using a soft cloth / chamois leather to loosen any dirt and grime. Then, rinse with cold water and dry with a very soft cloth / chamois leather to prevent water spotting, and help prevent static.
	Do not use chemicals, glass spray, or other abrasive cleaning materials. Do not use any form of scraper of squeegee or other sharp instruments.
Health & Safety	No classifiable hazardous ingredients.
Handling/Storage	Large panels can be heavy and unwieldy. Handle with care. If broken or chipped, the resultant edges can be sharp and cause cuts to skin and eyes. Wear suitable gloves. Take precautionary measures against static discharges.
	Store below 40°C and away from heat source. Store vertically on A frames (larger panels). Suitable lifting equipment may be required
Fire Fighting	Water spray, foam, dry powder or CO2. Wear self contained breathing apparatus, protective clothing and full face mask. Fumes should be ventilated immediately due to possible liberation of toxic, irritant and flammable vapours.
Ecological	This product is not bio-degradable. Dispose of in accordance with Local Authority regulations or via an authorised contractor.
